(Times new roman -10 inch-Italic)

Abstract(Times new roman -10 inch)

Abstract should be brief and should provide the details of methodology and results in brief.

Keywords(Times new roman -10 inch)

Provide 4-6 keywords of the work.

Introduction(Times new roman -10 inch)

The background of the work/ concept representing work with proper citations should be presented. Further, the authors encouraged to provide the brief discussion on scope and novelty of the work. The need of the work to the present also be discussed briefly.

Corresponding Author

XXXXXX. YYYY

xxxxxxx@gmail.com

Received- dd MM YYYY,

Accepted- dd MM YYYY

Experimental (Times new roman -10 inch)

The detailed experimental procedures, data and other methodologies if any relating to work bioactivities, etc can be provided in this section. The citations of the existing procedures if any may also be included.

Results & Discussion (Times new roman -10 inch)

The details of results and discussion on the same must be provided in detail. The discussion should be meaningful. The discussion should be easy understanding of the authors.

Conclusions (Times new roman -10 inch)

A brief summary of the results or conclusion on the work should be provided in brief.

Supporting Information (Times new roman -10 inch)

All data and material are available upon request.

Contributions (Times new roman -10 inch)

The authors are requested to provide contribution of each author in the present work in brief.

Conflict of interests (Times new roman -10 inch)

The authors strictly required to claim if any potential conflicts of interest in the work.

Acknowledgements (Times new roman -10 inch)

The authors are encouraged to acknowledge the sources, support or funding for the work, organizations, etc..

Funding (Times new roman -10 inch)
